

MY COKE REWARDS INSTURCTIONS

Dear Parents, Guardians and Friends of Holy Family School:

The Holy Family School Parent Group has taken on a new fund raising effort and we encourage all of you to help in this endeavor. We are asking everyone to begin saving your coke product reward points that are found on the lids of individual bottles and the cartons of can Coca-Cola products.

We then ask you to set up an account through www.mycokerewards.com. Once you set up an account you may then enter your reward points and then donate them to our Holy Family School. Holy Family will then be able to earn chances at major giveaways such as this month's chance for two \$25,000 playgrounds. Our school will also be eligible to cash in points for much needed supplies.

Attached are step by step instructions on how to start up your account and begin donating to Holy Family School. If for some reason you are unable to enter your codes via the internet, you may submit them to Holy Family School and someone will enter them for you. The trouble with this is that each account is only permitted to enter 120 points per week. So we truly need each individual to open an account if possible.

We truly hope this is a successful endeavor and we hope for a large participation from our friends and family.

Thank you for your help.

Dan Boller, father of Danny (2) and Will (K) Boller

ACCOUNT SET-UP

1. Go to www.mycokerewards.com
2. Click to register now and set up account (1)
3. After registering, sign in and begin entering codes from coca-cola products found on the bottom of bottle lids and inside of can cartons
4. After entering codes click on “spend your points” (2)
5. Click on “donate to your school” (3)
6. Click on “find a school”
7. Enter zip code 45205 (4)
8. Click on “Holy Family School” and click **continue** (5)
9. Enter the amount of points you wish to donate and click **donate** (6)
10. Verify the points you wish to donate and click **donate** once again (7)
11. Then just for good measure, reconfirm and click **submit** (8)
12. You then can “sign out” (9)
